

Cloud-hosted Sage 50

You need to run your small to medium-size business more efficiently with a time-saving, in-depth solution to manage your accounting, invoicing, cash flow, inventory, taxes, and more. Sage 50 uses a simple, intuitive management system that facilitates smarter and more efficient work.

Total Business Accounting On the Cloud

Trapp Technology's cloud-hosted Sage 50 solution is a cost-effective option for small to mid-sized organizations who seek to cut Total Cost of Ownership (TCO) and desire the security, reliability, and seamless integration of your software on a web-based platform. Gain instant access to your software and real-time data from any device and operating system, with simple internet capabilities – anytime, anywhere, without limiting the essential features and functions you already use. With our cloud-hosted Sage 50 solution, you can also expect 24/7/365, U.S.-based friendly and responsive technical support– all at a predictable, monthly rate.
