SAGE 100 CONTRACTOR

Sage 100 Contractor* puts you in control of your business. Manage all of the important business functions – accounting, project management, job costs, estimating, scheduling, payroll, and more with an all-in-one integrated solution designed for growing construction companies like yours.

Gain the Business Visibility You Need to Act with Confidence.

Gain the insights and information you need to increase profits and results from a complete solution that's miles ahead of off-the-shelf software like QuickBooks. Eliminate duplicate data entry and reporting games with a seamlessly integrated solution from start to finish.

DECIDE
Customized email alerts help identify potential problems or obstacles so you can act accordingly.

MONITOR
Check your business's health with an executive dashboard, including profitability, job status, and other important facts.

REVIEW
The one-screen Project Work Center highlights transactions, estimates, charts, job costs, or plans.

MANAGE
Oversee service operations from equipment and materials to schedules, invoices, and warranties.

INFORM
Keep your team up-to-date with reports easily accessed from the office or field.
