

TECHNOLOGY

PRESENTS THE FIRST ANNUAL
Technology Summit
network -- engage -- generate

You are Invited

Congratulations! You're invited to attend Trapp Technology's First Annual Tech Summit, held on August 25th at Chase Field in the Legends Suites. This is an excellent opportunity to network, engage, and explore new trends in tech that could be critical for your business's growth.

While the industry continues to expand at an incredible rate, it's important for a business like yours to keep a sharp edge. Included at the summit are a number of breakout sessions designed to educate Valley-wide businesses on the latest emerging technologies and services, how to adjust to these new atmospheres, and how these tools can be leveraged to achieve maximum business gain.

You'll get the chance to meet with vendors, business executives, and decision makers with a national presence to talk tech and plan ahead for your business's future. This is an opportunity you won't want to miss.

Immediately following, Trapp will be hosting the game with dinner and hosted bar. Included are bottomless popcorn, entrées, sides, beverages, domestic beer, and wine.
