

Polycom VVX 500 Business Media Phones

SIMPLICITY AND EASE OF USE

The Polycom VVX 500 phone is built for today's busy managers and knowledge workers who need a powerful, expandable office phone that keeps up with their multitasking and schedule-juggling. Building on the behavior common to mobile phones, the multi-touch, gesture-based user interface of the Polycom VVX 500 phone makes navigation intuitive and easy.

MAXIMIZE PRODUCTIVITY

Users benefit from such capabilities as viewing their Outlook calendar on the phone and receiving meeting reminders while still having access to their corporate directory – all while waiting for their PCs to boot. Users can also extend their PC desktop to include the Polycom VVX 500 phone's screen, helping to enable simplified interactions and dialing using their PC's mouse and keyboard. Training and multipoint communication applications are complemented by the Polycom VVX 500 video playback capability for streaming content.

BEST-IN-CLASS DEPLOYMENT AND ADMINISTRATION

The Polycom VVX 500 phone is easy to deploy and simple to manage. Its enterprise-grade, web-based, intuitive configuration method gives administrators the ability to easily set up and maintain a large number of phones throughout the entire enterprise. The built-in, broad interoperability capabilities allow IT departments to leverage previous IT infrastructure investments and achieve easy integration with third-party UC and productivity applications.

HIGHLY CUSTOMIZABLE AND EXPANDABLE

The Polycom VVX 500 phone provides personalized information at a glance, through built-in Web applications and even a digital photo frame. Polycom's "My Info Portal" serves up stocks, news, sports, weather, and other streamed content directly to the phone screen. The Polycom VVX 500 phone is ready for future expansion modules and accessories.

A performance business media phone that delivers best-in-class desktop productivity and unified communications for busy professionals.

The Polycom® VVX® 500 performance business media phone unifies superior voice capabilities and applications into a simple-to-use, yet high performance unified communications (UC) solution. It is the ideal, all-in-one knowledge worker productivity tool, built to integrate seamlessly into a wide range of UC environments.
