Managed Endpoint Protection

To ensure your company maintains complete control and visibility of its network components, Trapp Technology's endpoint security and threat protection services keep your company's software and hardware inventory as clean, safe, and secure as possible.

Managed Endpoint Protection At-a-Glance

NETWORK ATTACK PROTECTION

Protects against vulnerabilities for which a patch has not yet been released or deployed.

BOTNET PROTECTION

Protects against infiltration by botnet malware – preventing spam and network attacks launched from the endpoint.

EXPLOIT BLOCKER

New detection technology that strengthens protection against targeted attacks and previously unknown exploits – i.e. zero-day attacks.
