

# Cybersecurity Workshop

What is your security posture?

Cyber threats and hackers are moving at an alarming rate and becoming more cutting-edge with each attack. It is more imperative than ever to have a clear vision of your organization's security posture. At Trapp Technology, our team is devoted to evaluating your business's security posture, uncovering your weaknesses, and offering a comprehensive, compliant, and strategic plan of action to protect your security environment.

## What is Trapp Technology's mission?

Our mission is to provide you with a holistic understanding of your current cybersecurity posture and an immediate plan of action. Our ultimate goal is to be your trusted business partner helping drive clarity and providing IT solutions that solve your technology challenges.

## Why participate in a Cybersecurity Workshop?

This intensive workshop will allow your business to identify and assess your current level of security and to find strategic solutions to correct any areas of weakness within your security environment.

## What is the Cybersecurity Workshop process?

### TECHNICAL WORKSHOP SESSION (REMOTE OR ONSITE)

The workshops consists of an involved technical discussion with a cybersecurity advisor around your existing tools, services, policies and processes such as:

- Current Environment (Security/Network/Data Center/Application/ Disaster Recovery)
- Policy review, in-place controls & requirements
- Regulatory/business requirements & compliance
- Defense in depth: network, data, host, application, Cloud
- Cybersecurity (Malware/Phishing attacks/events)
- Risk mitigation and best practices

### POST WORKSHOP

Following the workshop data gathering, our team of advisors will process the content from our working session and tailor a deliverable report for your business detailing key findings, gaps, and recommendations that support the stated business requirements and goals.

### DELIVERABLE REVIEW MEETING (REMOTE OR ONSITE)

We will present your business executives with comprehensive documentation and actionable recommendations designed to assist them in making an informed decision on their path towards a secure environment.

### THE TRUTH

Cybercrime will cost companies worldwide an estimated **\$10.5 trillion annually by 2025**, up from \$3 trillion in 2015.

### KEY WORKSHOP MILESTONES

#### Kick-Off Meeting

- A Trapp Technology Representative will coordinate a 30-minute meeting for introductions, setting the agenda, and scheduling the workshop

#### Workshop Meeting Benefits

- We offer flexibility with remote or onsite sessions
- Cybersecurity advisors available nationwide

#### Deliverable Review Meeting

- We will present key findings and recommendations to your executive leadership
- Defined actionable items and next steps to getting your organization on the path to a secure environment.
